Detailed Action

Reasons for Allowance

1. Claims 1-26 are allowed.
2. The following is an examiner's statement of reasons for allowance. The prior art does not teach nor reasonably suggest, as recited in claims 1,8,15, and 22, a first actuator arm portion defining a voice coil motor (VCM) supporting end a head gimbal assembly (HGA) supporting end, a first latch portion and **a long axis extending from the VCM supporting end to the HGA supporting end**; wherein the actuator arm-joining portion includes a fold along a fold line that is substantially **parallel to the long axis**.

The closest prior art is Ohba et al (US 6,836,387) shows a stamped actuator arm folded along an axis perpendicular to a long axis but does not show the actuator arm folded along an axis **parallel to the long axis**.

These features, in combination with the other features of Claims 1,8,15, and 22, are not anticipated by, nor made obvious over, the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
